

I would like to offer my comments on the importance of keeping K-LOVE radio on the air. There have been many times when I needed to hear a specific encouraging word and KLOVE has been the answer to that need in my life. I can count on KLOVE to be uplifting and to help me focus my life on the important things. I believe in KLOVE and it's part of our community here in Denver. We need stations that are positive and encouraging. Please keep KLOVE on the air on the FM stations. My KLOVE Station is 91.1 here in Denver and there have been times that I have tuned in to my "911" station to find hope. Please consider the importance of others who need this same hope.

Thank you - Laura Finder
